Re: Remtech Environmental
Lewisberry, Pennsylvania
RCRA Facility Assessment
(PAD 067 098 822)

Dear Mr. Robinson:

The Environmental Protection Agency (EPA) has completed review of the RCRA Facility Assessment (RFA) for the Remtech Environmental Lewisberry, Pennsylvania. Based on our review, there has been no release of hazardous waste or hazardous constituents from the facility. In addition, the potential for such release is low.

Accordingly, the Remtech facility in Lewisberry will remain a low priority for Corrective Action under the Hazardous and Solid Waste Disposal Act (HSWA). "Low priority" means that EPA is not considering development and issuance of a HSWA permit or consent order until all "high" and "medium" priority facilities in State of Pennsylvania have fulfilled Corrective Action Requirements.

EPA retains the right to require Corrective Action under a Permit or Order at any time due to future releases or other new information.

Should you have any questions, please contact the Project Manager, Ms. Victoria Ioff, at 215-597-7223.

Sincerely,

A handwritten signature in cursive script that reads "Maria Parisi Vickers".

Maria Parisi Vickers,
Associate Director,
Office of RCRA Programs,
Hazardous Waste Management Division
